

SAE NIT KURUKSHETRA

About Us

SAE NIT Kurukshetra is a collegiate club affiliated under SAE India, which is a wing of SAE International on a national scale. The club is a platform for budding engineers to work together and arrive at solutions to the problems in the mobility field. It forms a link between naive talents and pioneers of the industry. Valuing the interdisciplinary nature of the automobile sector, UG students from various branches strive to innovate better under the guidance of our professors here at NIT Kurukshetra.

It is the inexorable spirit of the members that have been propelling the club despite various challenges in its path. Since its inception in the year 2009, the club's endeavorment has hardened in the anvil of time. We bring our skills in competition in various events like BAJA SAE, ATVC, SUPRA and Formula Bharat. We share the acquired knowledge with other minds in North India's biggest Automotive Workshop, Autokruti. "Ignite to achieve" is not only our club motto, but the way of life for us.
